

Build Dash Bulletin Board Kit

1. Print and cut out all the pieces included in this file. There is a color and black & white version.

2. Attach the head and two wheels onto the large triangle.

3. Attach the chest light onto the large triangle underneath Dash's head. Pro tip: Tuck this piece in slightly behind the wheels and head and make it look more realistic.

4. Hang up to decorate!

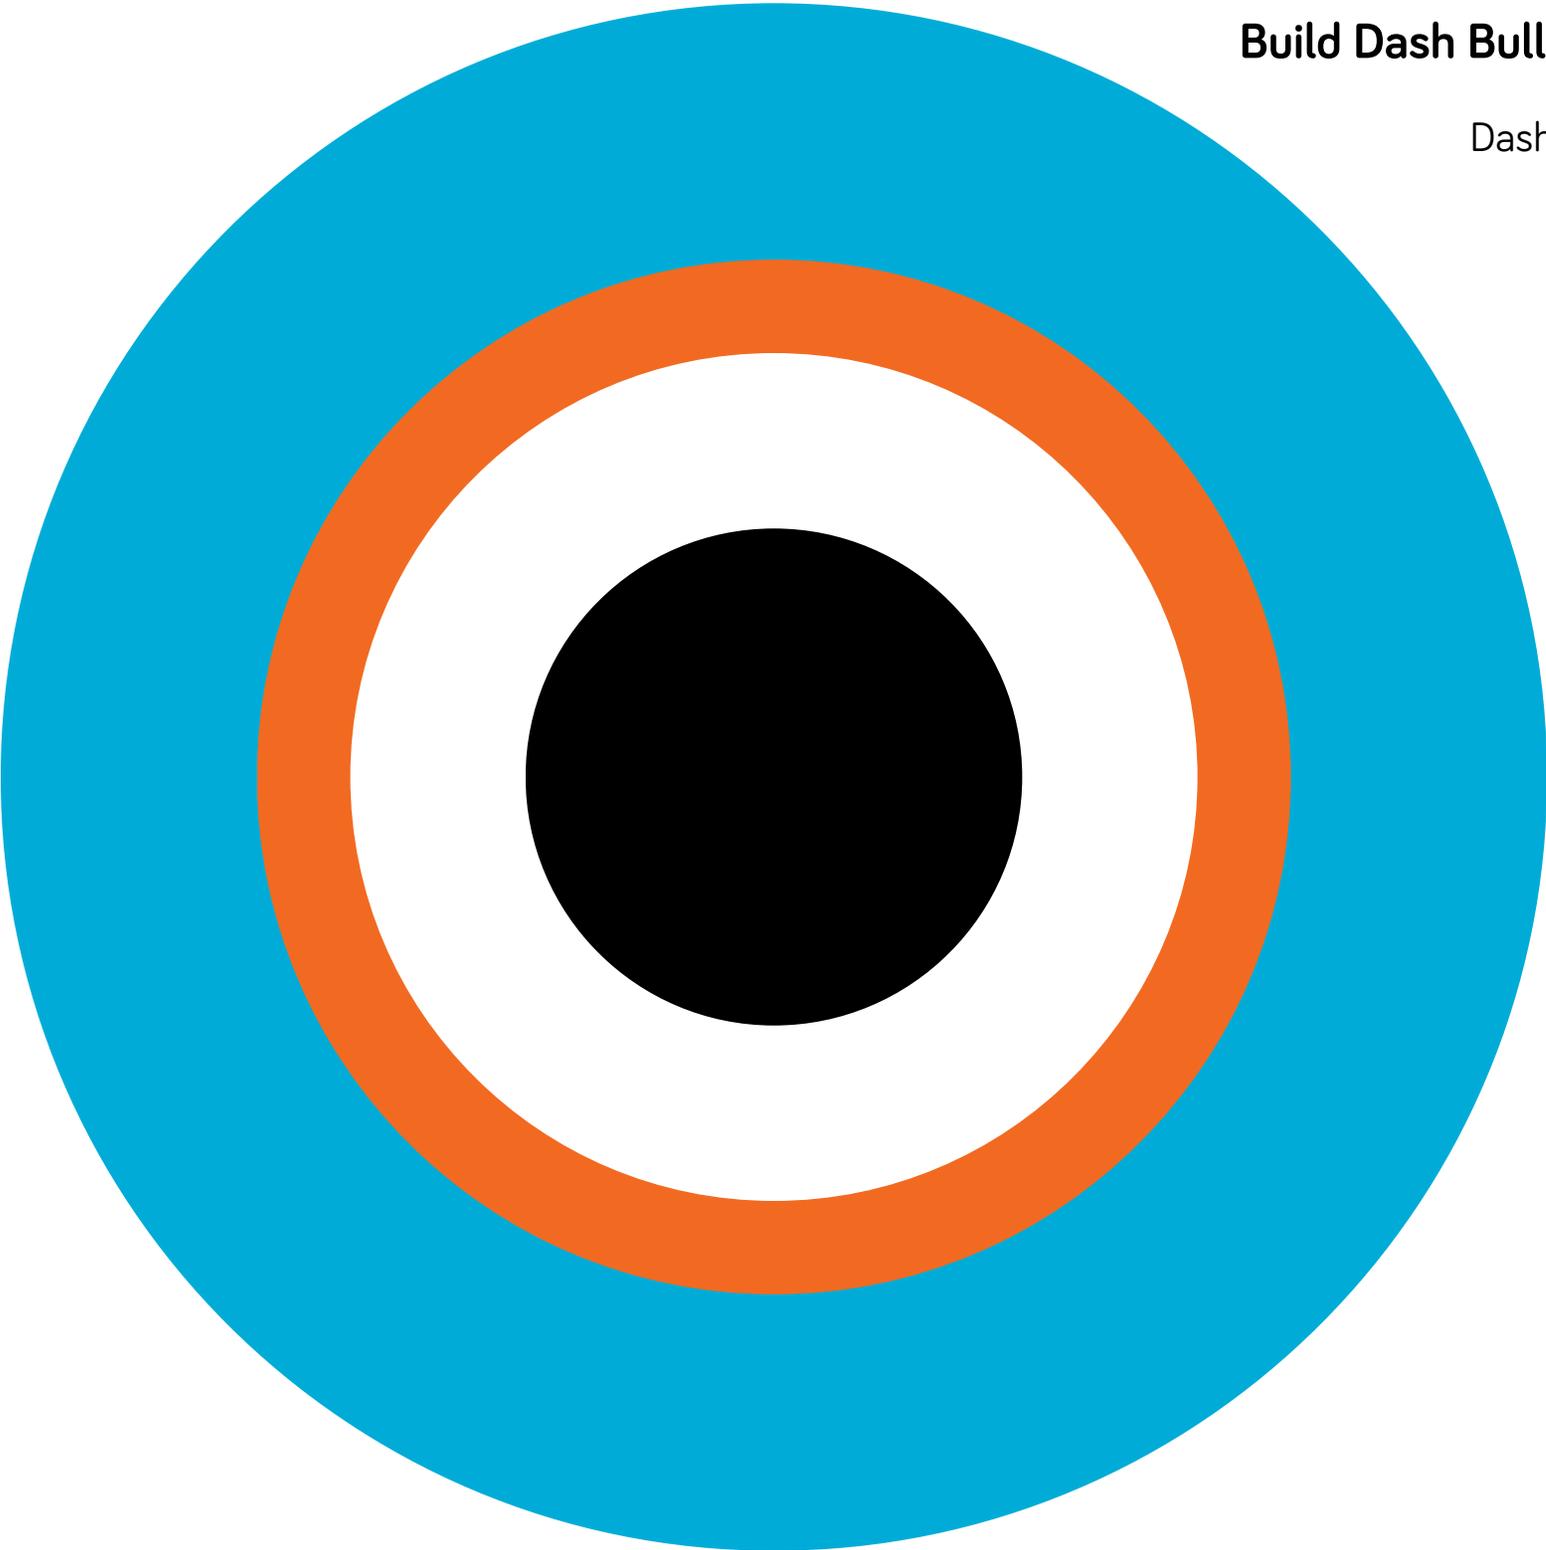

Build Dash Bulletin Board Kit

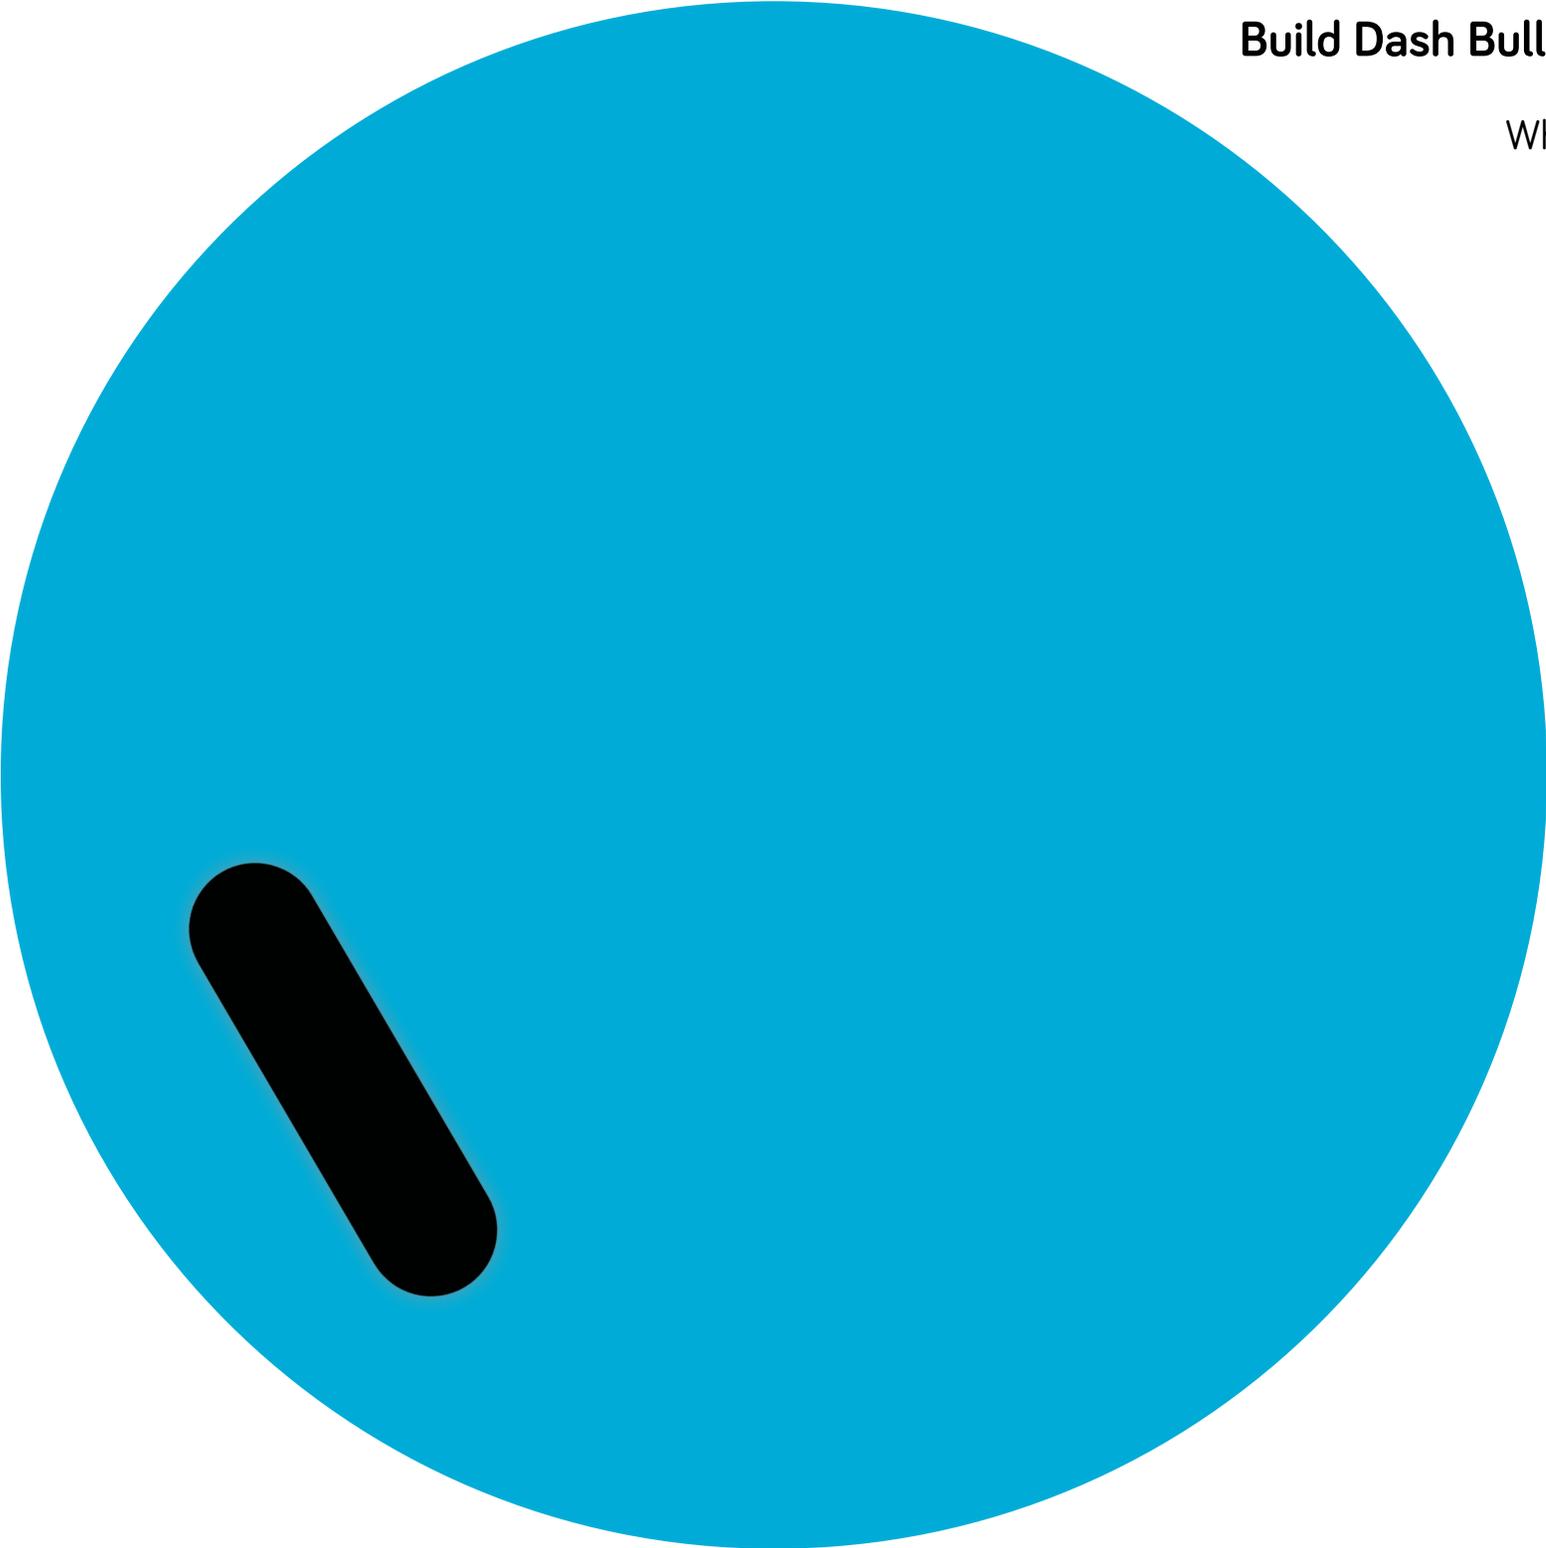

Bonuses!

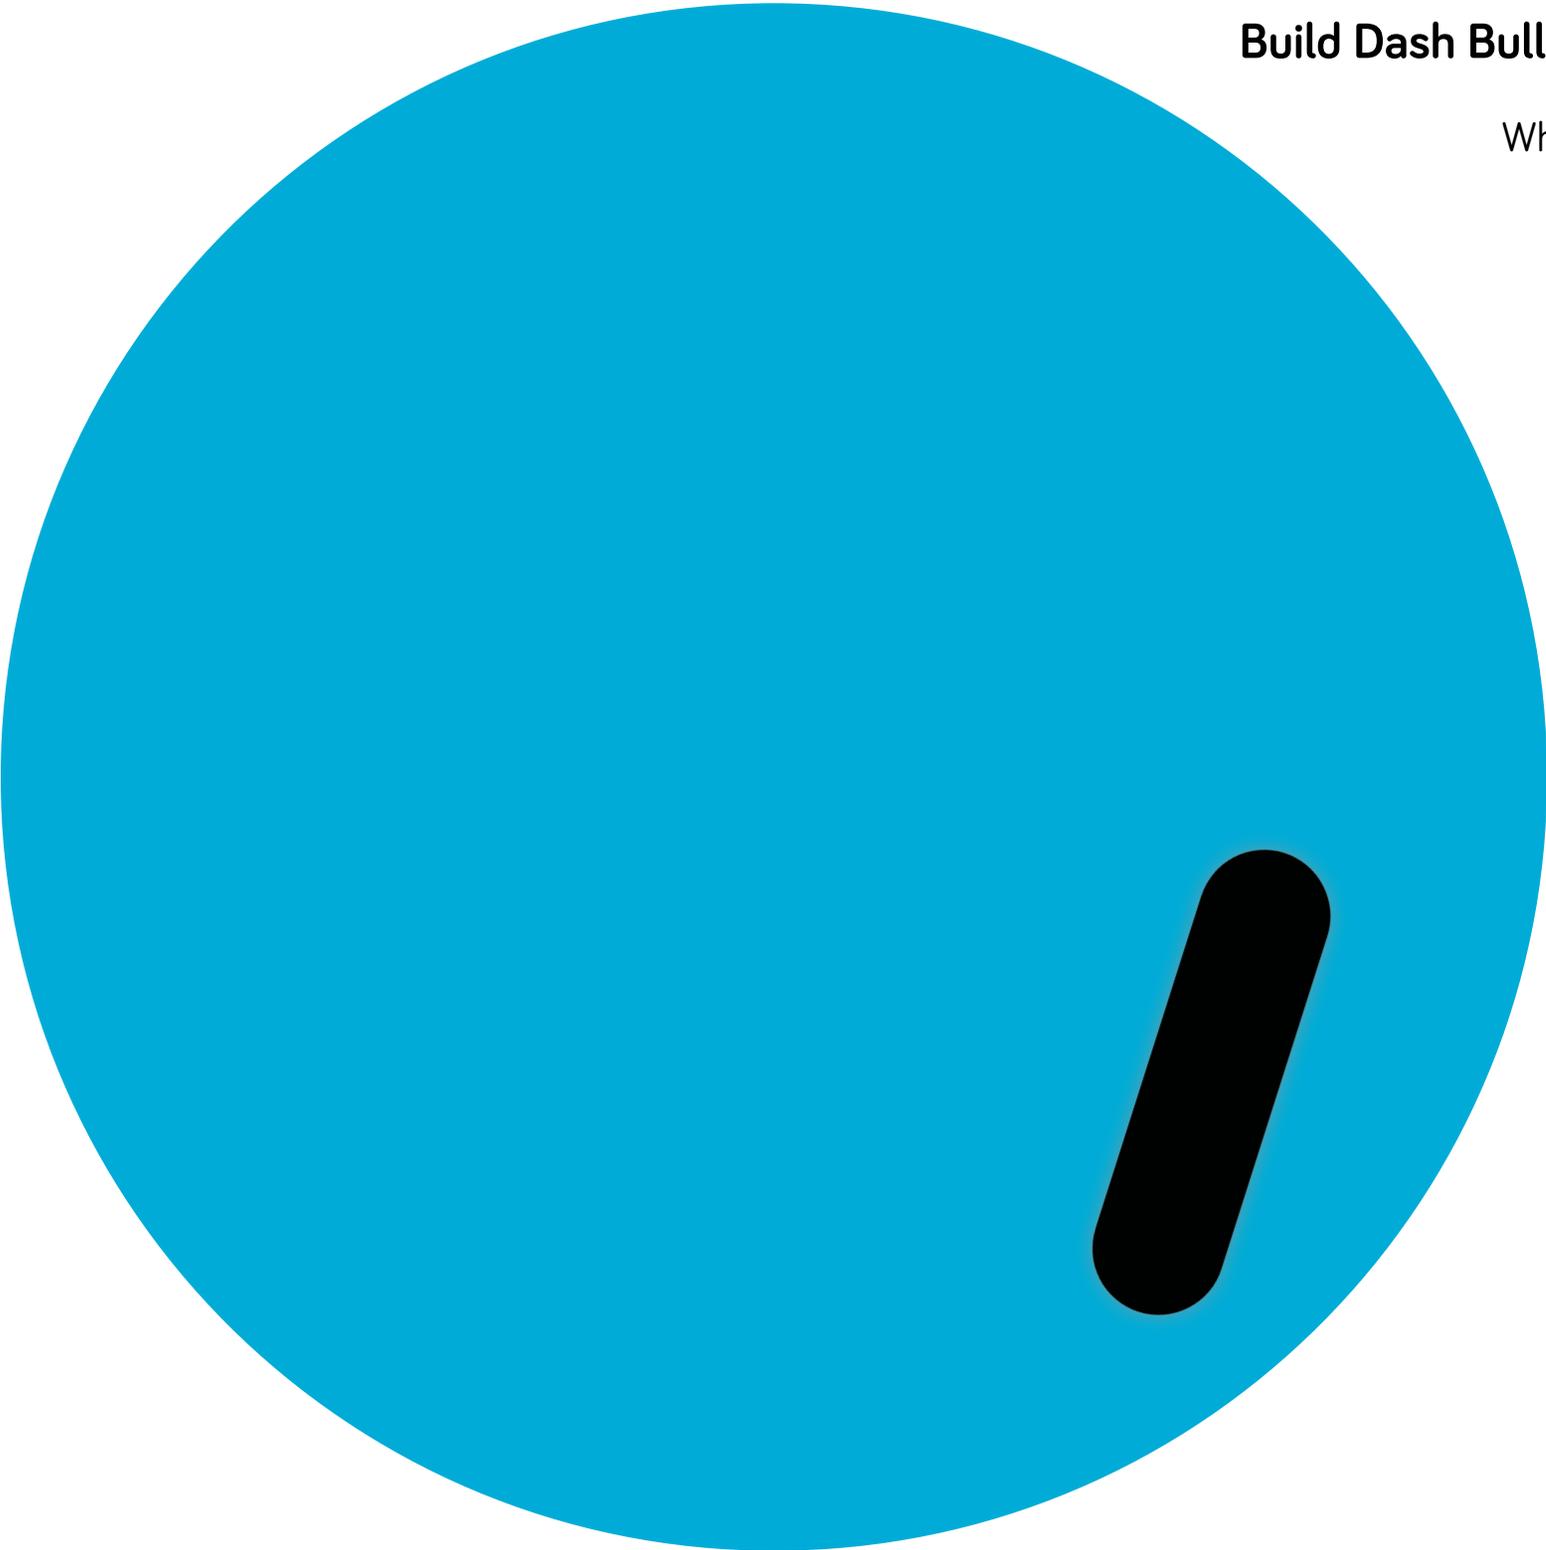

- Use the other items in this file to create a whole Back to School theme featuring Dash
- Hang up our printable coding blocks next to your paper Dash that you can find on our Getting Started Page
- Have students color and create their own Dash that represents them and hang up next to your paper Dash

Build Dash Bulletin Board Kit

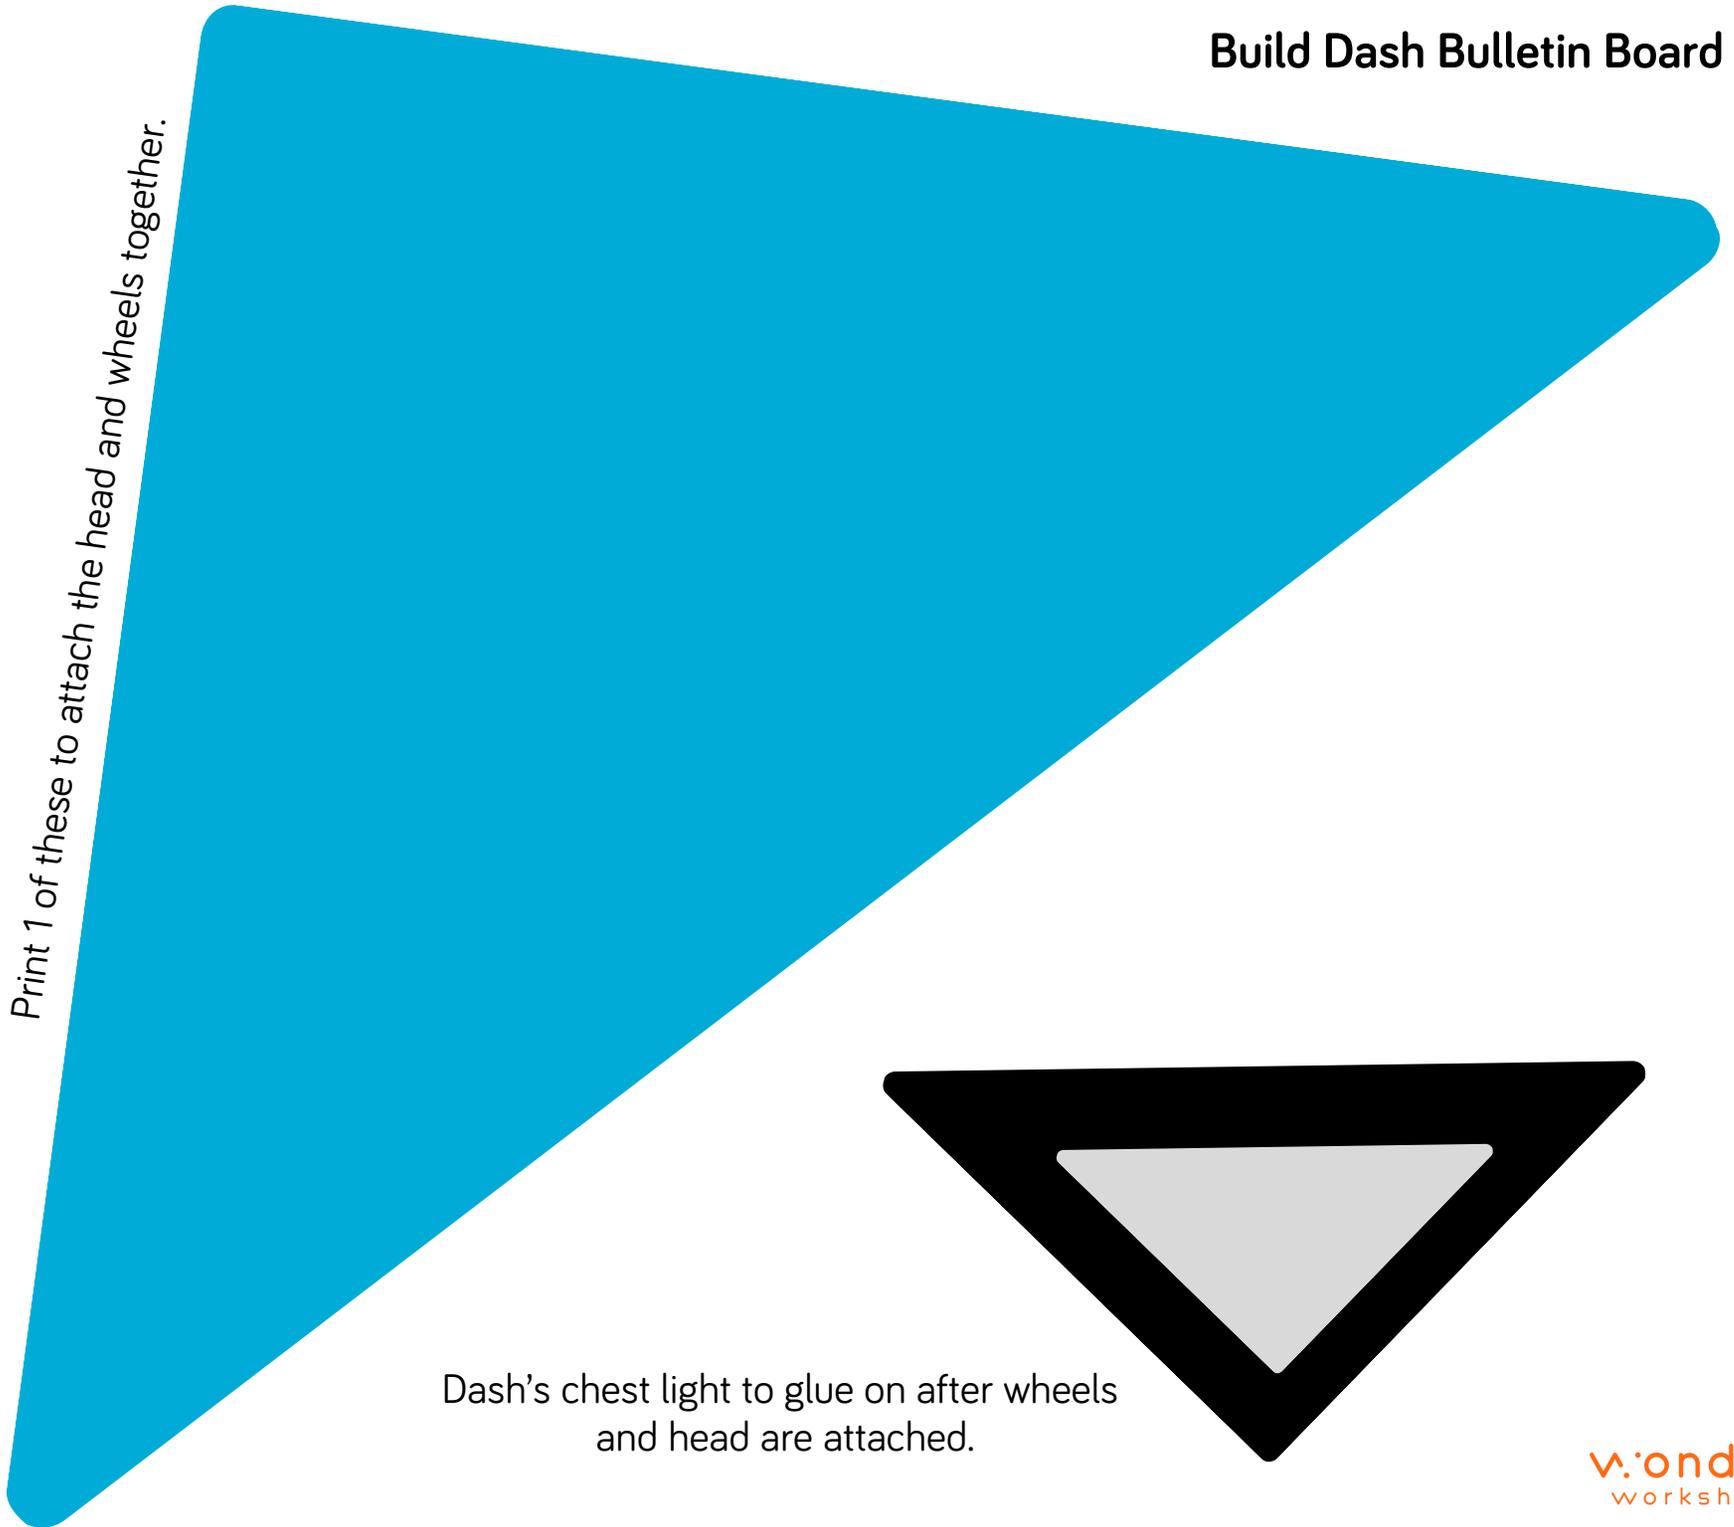

Dash's head

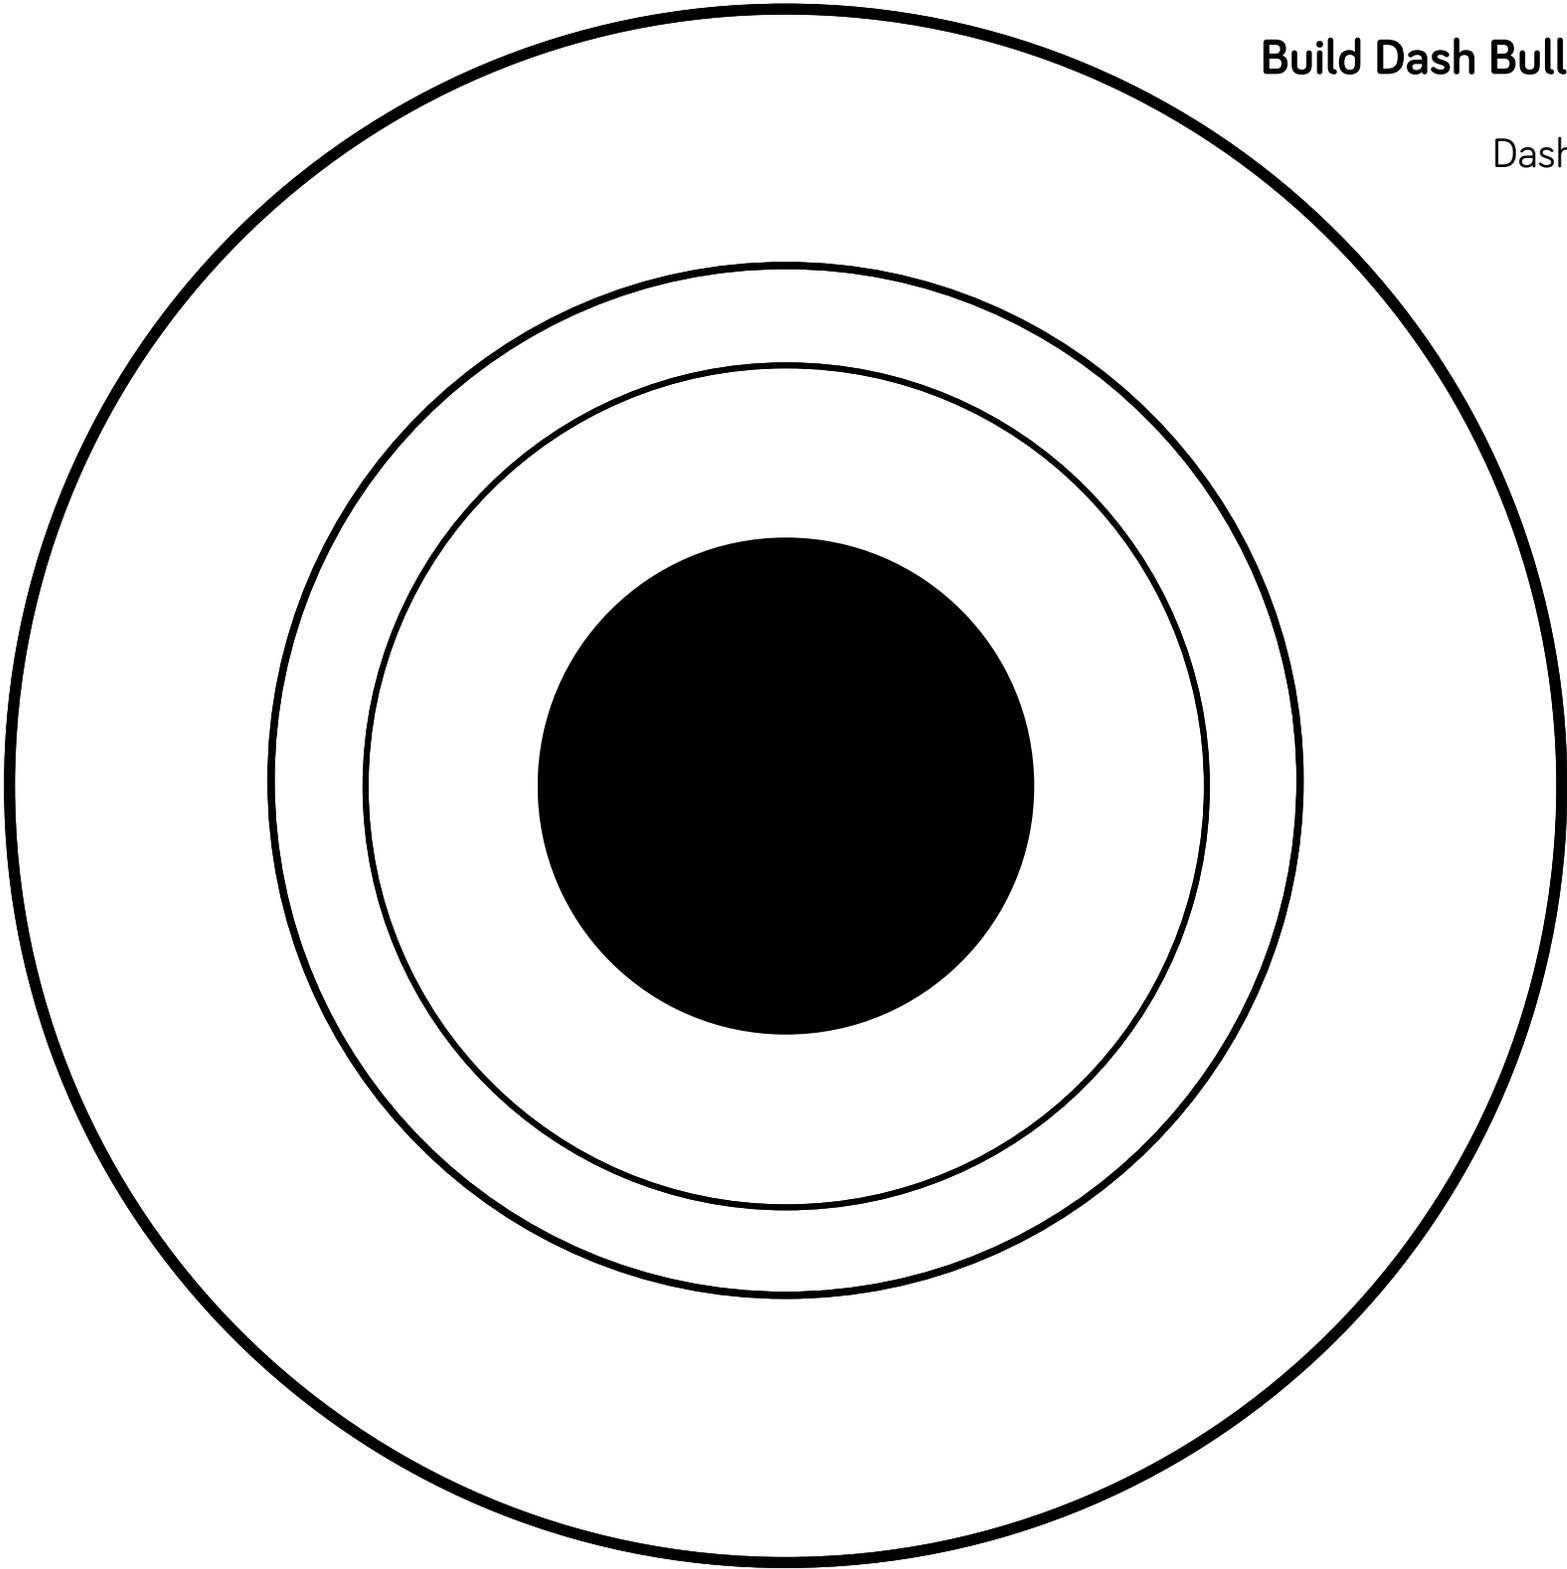

Print 1 of these to attach the head and wheels together.

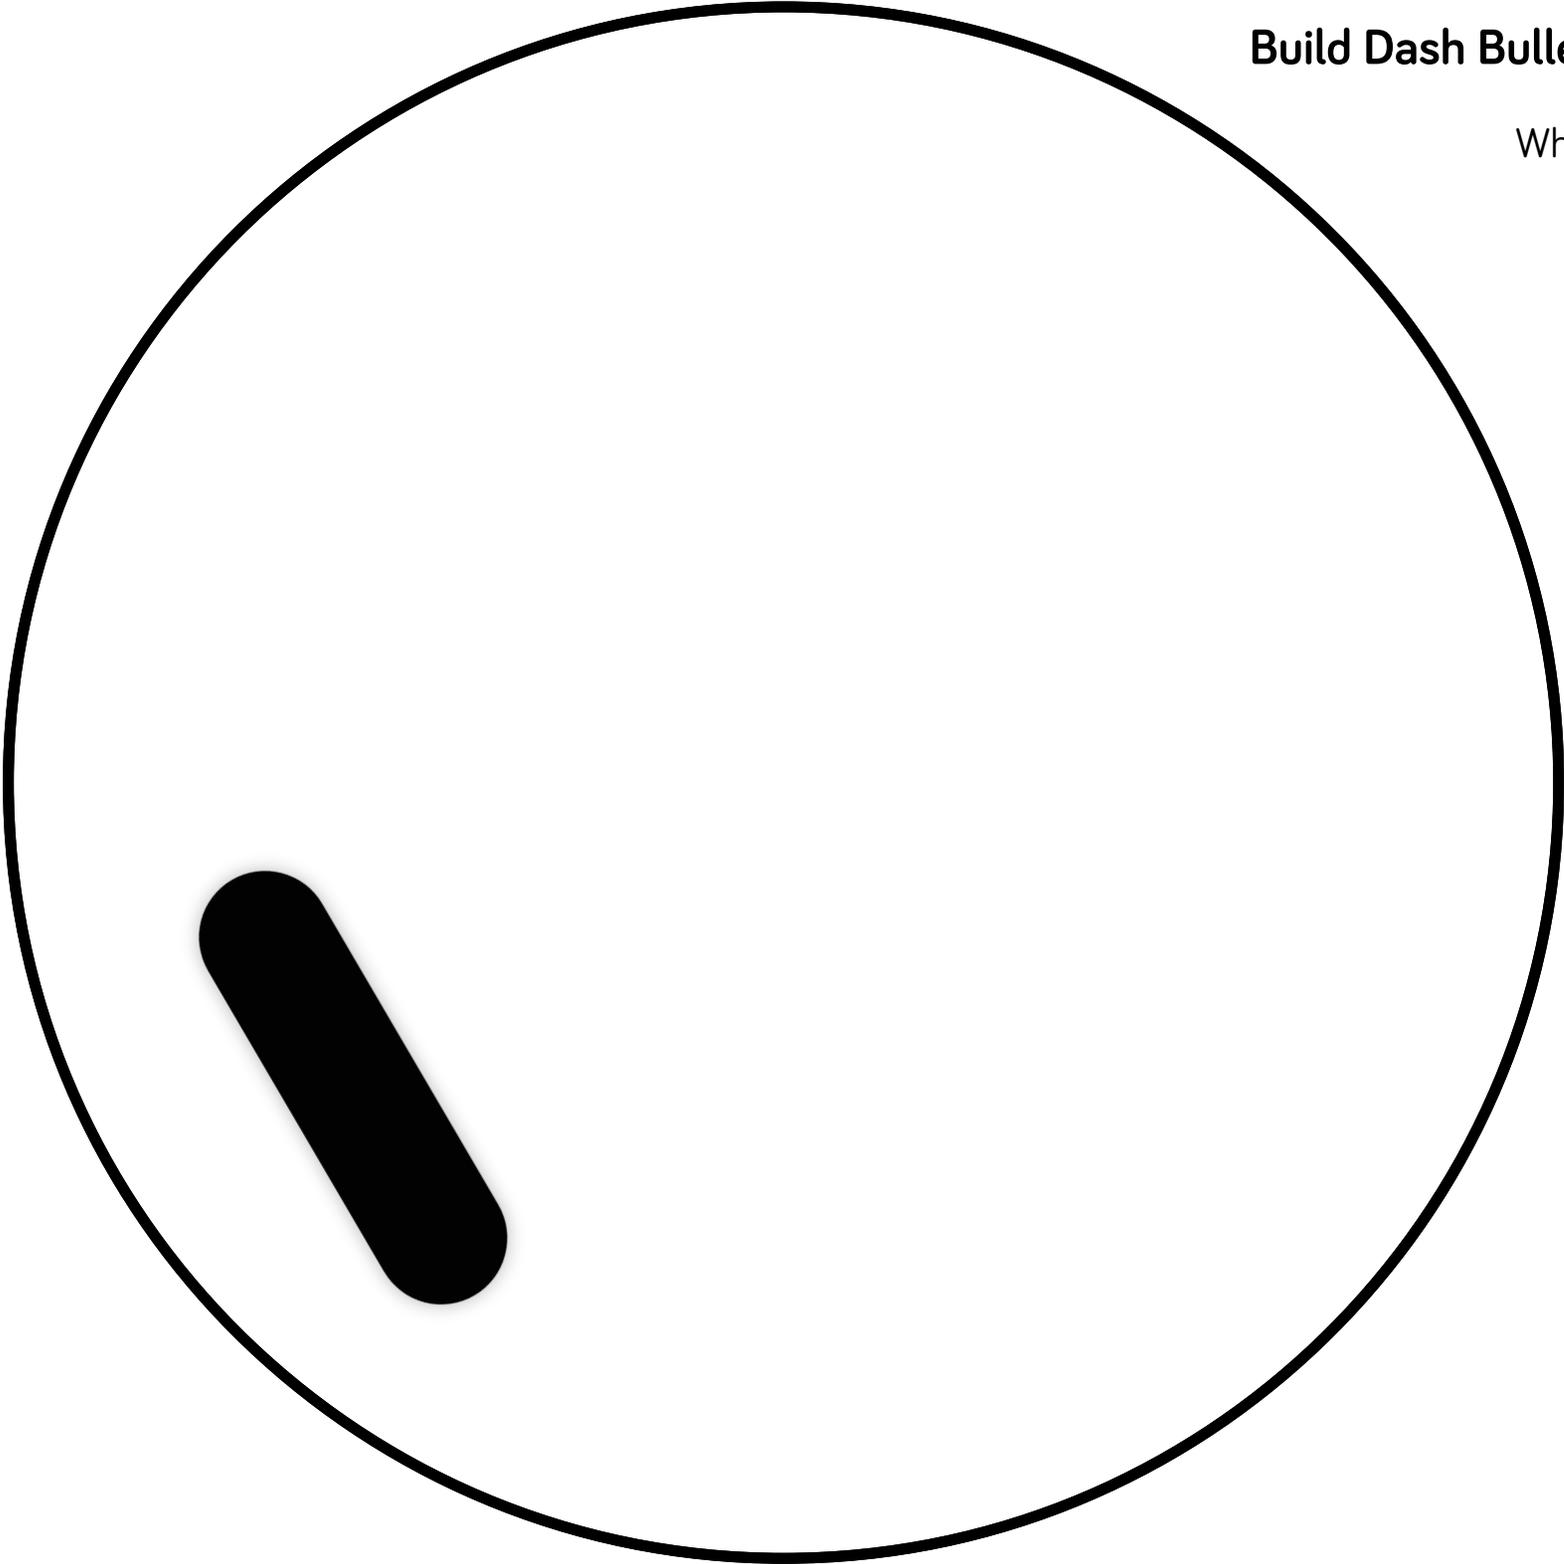

Dash's chest light to glue on after wheels and head are attached.
